

Kosovo Career  
Development Foundation

BUSÛLLA

## ORGANIZATIONAL SCOPE AND OBJECTIVES OF KCDF

PREPARED BY KCDF

## About Kosovo Career Development Foundation / Forum

Non-profit foundation that promotes career education and guidance, entrepreneurship, and alignment between the education system and labor market.

Key stakeholders include: Ministries, Municipal Education Directorates, international organizations (ASSET-USAID, GIZ, SDC, HELVETAS, LuxDev, ADA, Solidar Suisse), education institutions, and businesses.

## About Kosovo Career Development Foundation / Forum (Continued)

Following are the core objectives of our organization:

Promotion and provision of career education services to all public education institutions, teachers, parents, businesses, and business associations.

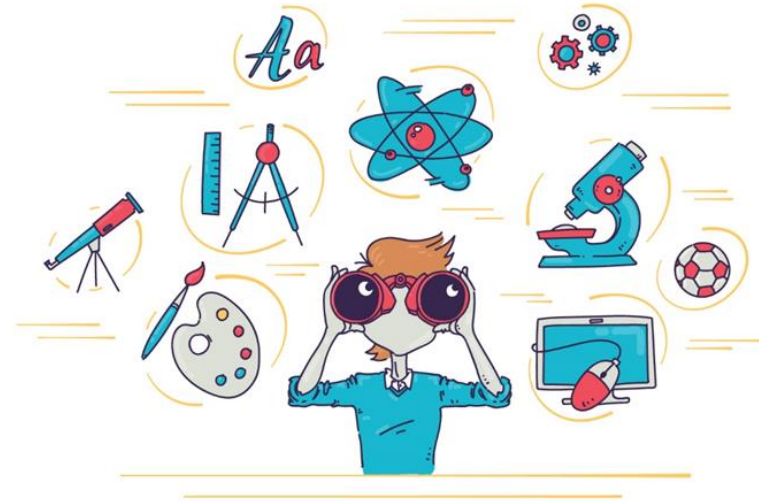

Conducting comprehensive analysis of education and labor market indicators for provision to relevant stakeholders.

Organization of the National Career Education and Guidance Forum.

## Provision of Career Education Services through Busulla.COM

Busulla.COM is the national career education and guidance platform for professional orientation and placement of students in the labor market.

- A. Helps students to make informed decisions about their career directions.
- B. Better use of own potential and affinities; therefore, more productive and quality life.
- C. Access to information and trends pertaining to youth interests.

**Provision of Career  
Education Services  
through Busulla.COM  
(Continued)**

These services have improved transparency and competitiveness between schools to attract students for enrollment, especially among VET schools to improve their school profiles, marketing, etc.

Businesses understand how cooperation with schools may lead to a skilled workforce.

Busulla.COM also supports inclusion of RAE and Serb communities, since several donor-funded projects have been implemented directly with these communities / schools.

# Busulla.COM

The official platform of MES for occupational orientation, education and career guidance.

Get Started

## Analysis of Education and Labor Market Indicators

Current situation analysis developed: Annual barometer study with students, research conducted with businesses, interviews conducted with teachers and school managers.

Education institutions are offered know-how and technical support to understand labor market training and skills needs as well as monitoring and evaluation of their policy and strategy implementation.

Tracer of pupils' and students' progress as they pursue further education or transition to the labor market to understand curriculum relevance, labor market requirements, derive success stories, etc.

Reports and trends are generated to be provided to ministries and municipal education directorates to inform their policy-making.

## National Career Education Forum Activities

Consists of four Special Interest Groups, including:

Career education for colleges and universities (e.g., Career Development Center & Venture UP at the University of Prishtina): Coordination of activities with high school students (information sessions, on-campus visits, new tools, etc.).

Career Centers and Career Clubs at VET schools: Established by SDC and GIZ, KCDF offers coordination of activities, capacity-building, sustainability, and replication.

Career Clubs in gymnasiums: Established by ASSET – USAID, KCDF offers coordination of activities, capacity-building, sustainability, and replication.

Career Clubs in lower secondary schools: Established by GIZ, KCDF offers coordination of activities, capacity-building, sustainability, and replication.

## National Career Education Forum Objectives

Identify key policy issues, shared terminology for guidance, and provide interagency cooperation on activities, events and projects.

Develop career management competence frameworks for citizens and career guidance practitioners and structures to support lifelong guidance delivery.

Define quality standards as well as innovation and best practices from other countries and organizations are disseminated.

Provide membership to international organizations, such as: ICCDPP, International Career Guidance Practitioners Community, Network for Innovation in Career Guidance and Counselling in Europe (NICE), etc.

KCDF plans to host the annual forum with relevant public, non-government, and private sector stakeholders.
